

To the students of City College

APRIL 9-14 1935

NATIONAL STUDENT ANTI-WAR WEEK

This is National Student Anti War Week. This is the students' answer to the Fascist and militarist moves of the United States Government in the nation and in the schools. This is the answer to the Citizens Military Training Camps, to the Civilian Conservation Corps, to the R.O.T.C. in the schools. This is our answer, together with the working class youth - we will smash the heinous war machine. We will align ourselves with the workers, the only class that can save the United States from the horror of the Second World War.

We offer you this program for National Student Anti-War Week, a program carried out in thousand American colleges.
