

ROBINSON MUST GO!

Oct 23, 1934

To All Students and Anti-Fascists

The visit of Italian Blackshirt students was an effort to reestablish Mussolini's reputation and to popularize Fascism here. Under our leadership thousands of workers and students demonstrated on Columbus Day against Fascism and its American friends. The students of many colleges did the same when the Blackshirt students visited them.

In C. C. N. Y., as a result of their protest, 17 students have been suspended after star-chamber proceedings; Student Council has been suppressed; student editors are being persecuted; a man-hunt is on with the aim of smashing student independence and giving President F. B. Robinson a free hand to introduce Fascist methods and ideas.

On Thursday afternoon, this Committee will send a delegation of its members, of leading educators and of trade union leaders, to see Mayor La Guardia. We will demand that he use his influence publicly to achieve these ends:

1. Reinstatement of all students.
2. Reinstatement of Student Council.
3. Restoration of freedom of the student press.
4. **'REMOVAL OF PRESIDENT ROBINSON**

This is the opening gun; we will not stop before C. C. N. Y. has become unsafe for Fascists and Fascist bootlickers.

WE CALL ON YOU TO PARTICIPATE IN A Monster ANTI-FASCIST Meeting

in support of the delegation
