DEMONSTRATE AGAINST WAR! 4

In 1917, City College boys went to Europe to end all wars--- We have learned the lesson they taught us with their lives.. To-day, with a new type of undeclared war raging in Spain and China,, and a new world conflict imminent,, we are put to the test.

The students of the College have always been in the forefront of the fight against war.. We have been the inspiration for the students of America.. To-day, with the need greater than ever before---- we pledge again----WE REFUSE TO BE CANNON-FOODER.

We have learned from the bloody mistake of the best of American youth, who gave their lives to make the world "safe for democracy". Let those who profited by the last war and who will profit on the next give their lives. WE REFUSE TO DIE IN THE NEXT WAR.

We stake everything on the fight against war. We are young. Our lives are valuable.. The future belongs to us, WE REFUSE TO BE CHEATED OF IT.

We serve notice----

We refuse to support any war the American government may undertake. We will not lay down our lives in defense of American imperialist interests.

ALL OUT ON THE CAMPUS----FRIDAY AT NOON

Anti-War Committee of City College Clubs.
