## PEACE PROGRAM OF THE A.S.U. As Applied to the Present World Crisis

The American Student Union commends President Roosevelt's cable for peace and urges its implementation through:

1. Calling of a conference of all signatories to the Kellogg-Briand Peace Pact to work out a peaceful solution to the present world crisis.
2. Specifically warning Nazi Germany not to break the Kellogg pact, and the immediate placing of an embargo on all war materials to Germany, and a complete economic embargo should Hitler march into Czechoslovakia.
3. Stopping Hitler aggression on all fronts by lifting the embargo on Democratic Spain; all aid to the heroic people of Spain.

### The American Student Union calls for:

1. Support to the Czechoslovakian Republic.
2. Support to the British and French people in their opposition to the Chamberlain-Daladier "sell-out" of Czechoslovakia.

THE PEACE OF THE WORLD CAN STILL BE SAVED.  
MAKE AMERICA A FORCE FOR PEACE.

## "KEEP AMERICA OUT OF WAR BY SAVING CZECHOSLOVAKIA"

"Today, the crisis of Czechoslovakia threatens the peace of the world. A defeat of democracy in Central Europe would be a tragic blow to culture and to political and economic freedom everywhere. The outbreak of war in Europe, an event abhorred by all peoples, will mean not only the breakdown of international morality and justice but also the dawn of an era of barbarism. We recognize that war in Europe will inevitably affect the peace of the Americas.

"To help mobilize American sentiment to preserve world peace, a joint mass-meeting of Faculty and students will be held in the Great Hall on Thursday, September 29th, at 12 noon."
