Something MUST Be Done
about This!

12/1/37

One out of every two students on N.Y.A. has been dropped. Last year 1452 were on N.Y.A., this year only 700 were appointed. Aubry Williams National Executive Director of N.Y.A. recently said that N.Y.A. may be abolished entirely. We must not let this happen!

The results of the poll conducted at the college last month show that over 1500 students need financial aid. Only 500 students have jobs. Soon even these students will be without any aid. How can education be called "free" if we cannot afford to go to school? Books, fees, carfare, and lunches must be paid for. A student must buy clothes-- using WHAT for money?

Join in the fight to help every student to get a decent and free education!

Attend today's rally! N.Y.A. must not and can not be abolished, without the passage of the American Youth Act!

ALL OUT!

N.Y.A. RALLY
