

Oct. 29th to Nov. 2nd OUST ROBINSON WEEK

THE RISE OF ROBINSON

Before Robinson: 1848-1928—2 suspensions.
After Robinson:.....1928-1934 — 21 expulsions, 40 suspensions. Abolition of Social Problems Club, Student Forum, Liberal Club, ousting of Oakley Johnson.

Suspension of student papers, "Ticker", "Compass", and "Student."

Suspension of the Student Council.

Robinson is not limited in scope however. He is versatile. He contributes to "True Story" and the Hearst papers. He became an accomplished cellist in six months and an etcher over a summer. Among the epigrams attributed to him: "Conscience is piffle" "Pish, pish, just a boyish prank." "Science is the latest conception of that which is inconceivable." "You're trying to put me in a hole but I can climb out."

Dr. Robinson is an overt enemy of student liberties. These liberties are prerequisites to action against retrenchment and war. You cannot fight against retrenchment or war without having the rights to hold meetings and publish a free newspaper. The removal of Robinson by the pressure of the student body will lend tremendous strength to our movement for academic liberty. What a chastening effect it would have on any reactionary college president were his colleague at CCNY ousted!

For your own interests, then, the entire student body of New York must help City College in its campaign for the ousting of Robinson, the reinstatement of the five debarred anti-fascists and no disciplinary action against student participation in the anti-fascist welcome on October 9 to the Italian students. **YOU MUST**
