Dear Kofi:

We are now in the process of near-final editing for *Never Again: Practical Steps Toward Prevention of Genocide*, so I want to express my deepest gratitude for what you have given to this enterprise. Your ideas, wisdom, unfailing encouragement, and enduring friendship have done much to make this possible. With great pleasure, I dedicate this work to you along with several other wonderful people who have been exceedingly helpful over the years.

I am enclosing the title page, table of contents, acknowledgements and first chapter to give the flavor of the book. As soon as Oxford University Press publishes it in spring, 2007, I will of course send you a suitably inscribed copy. But I surely expect we will have opportunities to discuss it.

With deep and enduring respect, affection and gratitude,

As always,

David

Edward -
Perhaps all that's needed
at this stage is a
thank you response from you?
Not sure that the SK
needs to see this.

Subject Re: □

Dear David,

Thank you very much for copying this to me, and for your very kind words about the speech. In my turn I am copying to Geoff Wiseman, who was the main author of the content (I take some credit for the arrangement and phrasing), and also to my deputy Annika Savill, who has been preparing a selection of the SG's most important speeches over the decade for posting on the UN website. I think the SG would greatly appreciate it if you could help us find a publisher for a book version of this. I would be happy to provide the kind of contextual introductory texts that you suggest.

I have been meaning also to write and thank you on his behalf for the extracts from your own book that you sent, over a month ago, with a very nice covering letter. He and I will both be looking forward to seeing it when it comes out next year.

It may be a good idea to fix a time now if we are going to meet later in December. My last week in the office will be the one beginning 18 December. At the moment, it still looks relatively uncluttered, but that will probably not last!

See you at the IPA dinner tonight.

All best wishes.

Edward

Dear Edward,

I am sending you a copy of my note to Kofi today because I think the Princeton speech was a remarkable accomplishment. You certainly deserve congratulations for your part in this extraordinary contribution.

I have on my tickler file, as you suggested, to call you on or about December 12th so that we can get together to discuss future plans.

With very best regards,

As always,
