NOTE TO THE SECRETARY-GENERAL

22/9

GA Statement

1. Your statement of Monday continues to reverberate.
2. Ambassador Fowler called to say that the Canadian Foreign Minister's statement would propose the establishment of mechanisms to study means for furthering the ideas raised in your statement. For this purpose he would propose the establishment of a "Friends of Protection" group. (This title of the group is not very pretty, but it certainly is less controversial than "Friends of Intervention". Bob Fowler is searching for an alternative title.)
3. Ambassador Fowler asked whether we would have any difficulty with their proposal and I said I did not see any. Your confirmation requested.
4. The Canadian statement would also contain references to the Council's responsibilities in the protection of civilian populations.

Thank you.
